CLEAR AWAY AGING SKIN FOR A MORE YOUTHFUL APPEARANCE

The ClearLift tip represents the latest alternative to skin resurfacing and cosmetic surgery.

IT'S LIKE LASER SURGERY

ClearLift can take years off of your face in just minutes, providing similar results to chemical peeling and laser resurfacing.

The treatment is virtually painless and has absolutely no downtime, making it the first laser treatment for sensitive areas of the body including hands, neck, décolletage and around the eyes.

ADVANCED LASER TECHNOLOGY

CLEARLIFT REPRESENTS A BREAKTHROUGH IN COSMETIC LASER TECHNOLOGY

MICROSCOPIC HOLES UNDER THE SKIN

ClearLift emits short, yet extremely powerful bursts of light which reach underneath the skin's surface; stimulating collagen and breaking apart unwanted pigmentation.

BYPASSING THE OUTER LAYER

The unique characteristic of ClearLift is the fractional pattern which doesn't ablate the skin.

By avoiding damage to the skin's outer layer, the treatment becomes virtually painless with quicker results and no downtime.
